

President's Message...

Greetings Members!

We have a change in Executive Director, as we say goodbye to Nicola and thank her for dedication and efforts over the past four months. Nicola and her husband Dwayne are relocating to Victoria, although they will continue to be active members of our cooperative. Our new interim ED will be our old ED, Valerie Gilson, who so kindly will spend the next four to six months with us to put together our year-end and our AGM. We will begin the process of recruiting a new ED in the New Year. Please stop by and welcome Valerie home.

In the past six months Peace Energy Cooperative has worked hard at driving our green energy business forward. We have had many presentations from a number of green entrepreneurs. Nothing has come to fruition as of yet, but we are optimistic that we may have a project to announce in 2012. The board would like to thank the members on the R&D committee for their all the hours they put into investigative work and continuing to build a broader base of projects for the co-op.

At the time of publication, there are still a few Class A Shares available for investment. Please contact Valerie for further information - and remember that memberships make great gifts!

We are also excited about the Art Contest that was launched by our marketing committee, we will announce the winners in early December and have all the entries on display at our open house on Wednesday, November 7th at Energy House, Northern Lights College.

At anytime you have questions about your co-operative, please give Valerie a call at our office.

Dear Members:

An unforeseen and unexpected change has taken place in my husband's and my life, which has made it necessary for us to leave Dawson Creek in order for him to pursue work. My priority in leaving my position as Executive Director for Peace Energy Cooperative is to make my exit as seamless as possible in order to continue with all of the good work that is underway. When I became Executive Director of Peace Energy Cooperative we were most fortunate to have retained the services of Valerie Gilson as a consultant and my mentor. I am extremely happy and relieved to inform you that, effective immediately, Valerie has made herself available to resume her position as ED on an interim basis in order to assist the cooperative in replacing me. She will be guiding us through our budget process, year-end, next year's AGM, and the hiring and training of a new ED.

It is with great sadness that I say goodbye. It was an honour to have been your Executive Director; even though it was for a brief time I will always think of it as my dream job. Thank you all very much for your friendship, support and understanding.

I will continue to constantly and consistently promote renewable energy wherever I end up, and thank you all for doing the same.

Sincerely, Nicola Peace, Executive Director
