

become a member!

with your initial investment of \$200 you'll receive:

1) **full membership in Peace Energy Cooperative** with an attractive membership certificate suitable for framing;

2) one **\$200 membership share** that will pay dividends based on the profits that the co-op will generate;

3) **further investment opportunities** that will become available from time to time;

- *You must be a member to purchase Investment Shares.*
- *Purchase of Investment Shares is not a condition of membership.*
- *Membership and Investment Shares may be redeemed by the Cooperative (in accordance with the Rules) in certain circumstances, including where a member withdraws from the membership and where the Cooperative terminates the membership of any member.*
- *Redemption of Membership or Investment shares is subject to the restrictions set out in the Cooperative Association Act.*

4) **an equal vote** with every other member for the election of the co-op board and other issues of importance to the co-op. Each member of the co-op has one vote;

5 **information about green energy** in the Peace Region and early notification of co-op sponsored workshops and conferences about green energy;

6) **a voice!** As a member of Peace Energy, you are part of an important group that has the opportunity to affect local, provincial and federal government policy on energy issues;

7) **the opportunity** to contribute to sustainable economic development;

8) **the knowledge** that you are reducing greenhouse gas emissions, slowing global warming and creating a **safer and more secure future.**

here's how to join:

- 1) follow the instructions on the enclosed membership form and mail to **Peace Energy Cooperative**
- 2) OR visit www.peaceenergy.ca and follow the instructions on our electronic membership form

about us:

Since 2003, Peace Energy Cooperative has worked to develop the renewable energy resources of the BC and Alberta Peace Country: wind, solar, biomass and geothermal

our goals:

- local ownership of local resources
- investment opportunities for members
- healthy return on member investments
- partnership and alliance building
- conservation and sustainability

why a co-op?

- ownership of resources stays with local people
- each member has an equal voice regardless of investment amount
- the tradition of co-ops is well established
- in the BC and Alberta Peace region
- co-op development of renewable energy is well-established world-wide
